

Abbott Brothers Stage Plot

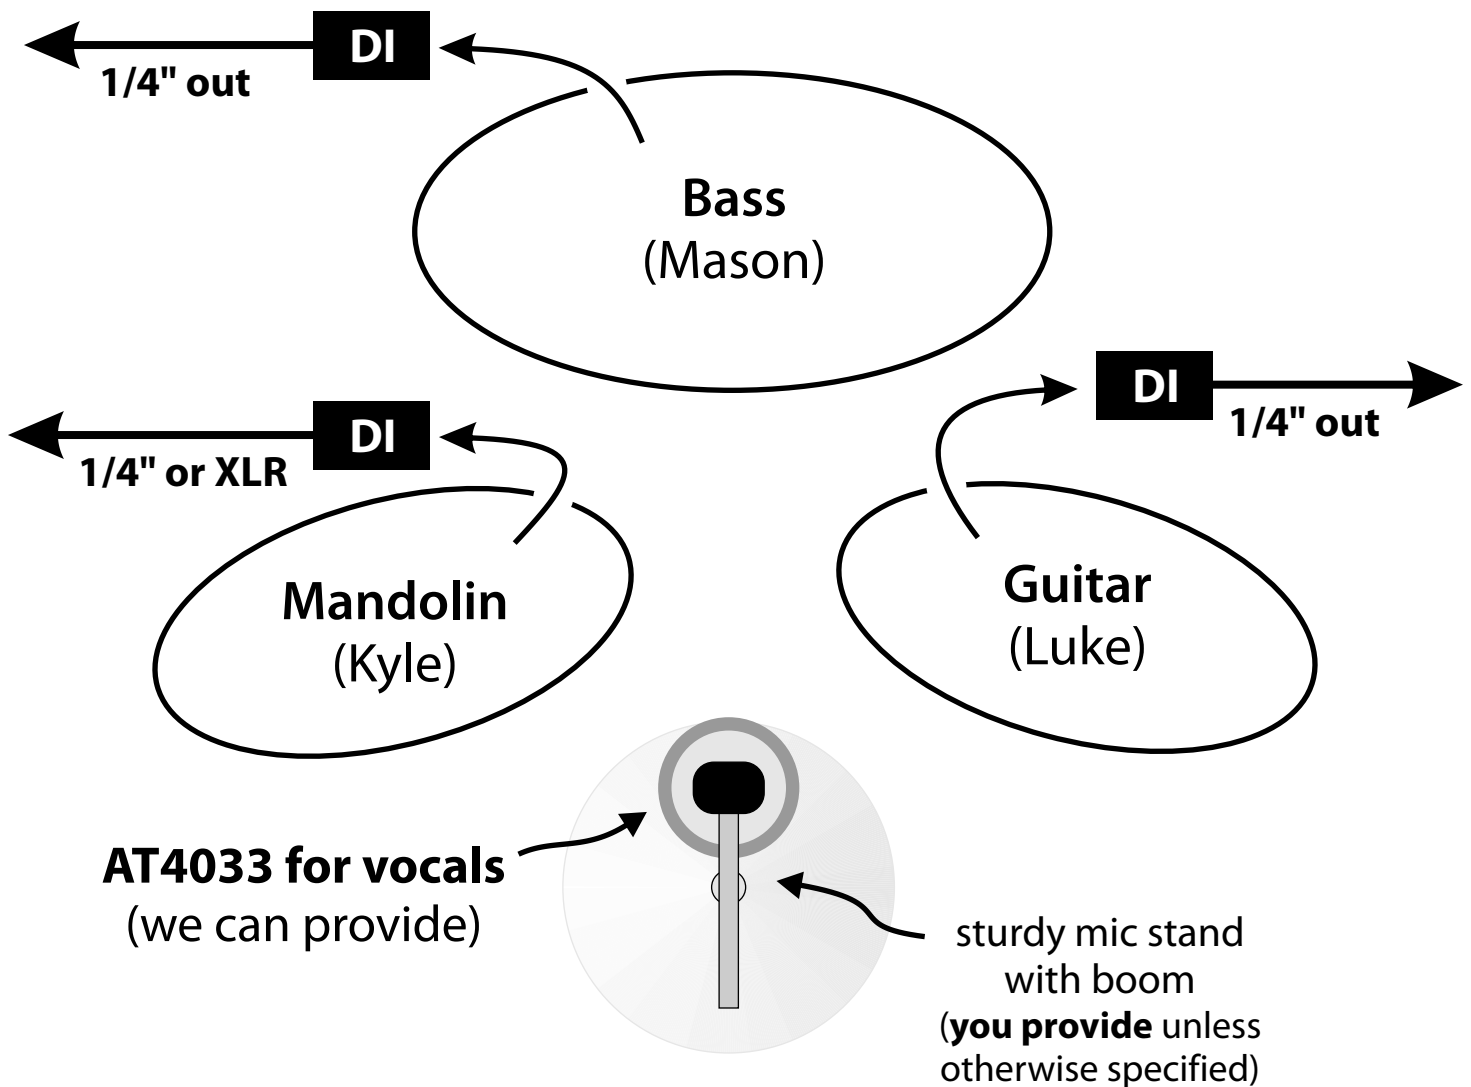

rev - 2012a

We use (and can provide)

- one large-diaphragm condenser mic (AT4033)
- three direct boxes

You provide

- one mic stand with boom
- 1 or 2 monitors if possible

Monitors: If available, we'll take a little of our instruments (especially bass). No vocals necessary, as vocal mic is prone to feedback. (Our preferred setup is one monitor beside/behind the guitarist, but it's not important.)
